

Love In Lights

Contributed by Administrator
Monday, 11 June 2007

Winter is the perfect time to express your love with lights.

Twinkle lights can be arranged to form messages on roofs, fences or even on the ground to be seen from above (from a plane, office building or even a second story window).

Whether you use the messages to make a marriage proposal or to reaffirm your love, it will certainly make for a very beautiful and memorable evening.
